

# STOPDIGGING!

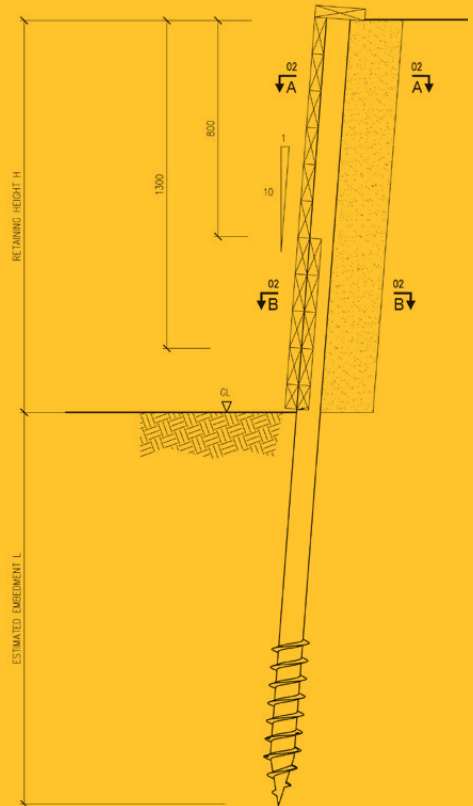

THE GROUND SCREW FOR SOLID FOUNDATIONS

## RETAINING WALL SCREWS

### PRE-ENGINEERED GROUNDSCREW SOLUTION

Groundscrews are an efficient and economical solution to piling for retaining wall construction and ground stabilisation.

- Pre Engineered solution for retaining walls under 1.5m with no surcharge – and exempt from Building Consent.
- Specialist solution for remote sites, limited access requirements, sensitive environmental or archeological areas.
- Fast Installation, no ground disturbance, Zero Waste.
- Projects requiring Building Consent will require SED design.
